Fed Cattle Sharply Lower, Hogs Also Lost Ground in Monday's Trading

Around the central markets on Monday fed stoors and heifers posted sharp Around the central markets on Monday fed steers and heifers posted sharp declines at points. Receipts were only a trifle heavier and the dressed beef market opened generally steady but the trade was slow. The generally pessimistic feeling appeared to stem from a majority of factors ranging from the recent weak performance of the careass trade and rising interest costs and higher feeding costs created a gloomy atmosphere not only on packer entitle but feeders as well, flog prices were also lower at all markets with receipts only a couple of thousand larger than a week ago, Monday's estimated cuttle kill of only 65,000 was 29,000 under a week ago, but 18,000 over last year, a reflection of the effects of the Tuesday holiday at many plants. Monday's estimated hog kill at 316,000 was 50,000 under last Monday, but 137,000 over one year carlier. Price trends, indications on choice and bring steers and heifers, and again the fow end of the

Brakes for Regulators

CONT. FROM PAGE D pensivo and time consuming problem.
In most cases where the overzedent regulators have taken their lumps in court they have refused to give up, wasted a lot of time and government money in trying to make their these prevail.

It is huped and expected that the test government will take a turn torsel cooperation with business and industry, including agriculture, and stress prevailing adversary positions of the arent past.

were appointed to top Administration jobs in the Carter years. It has been in dicative of these years that now that it team will be changed that outgoing by rearnts have confessed what we had sail along. They were out of step.

One Labor Dept., spokesman sail if tel like mone of us understood the dept

of desperation of the American works "We're insulated in Government and don't know it." Another new job seka allowed as how "we tried to do too need. too spickly, and too often did not know as much about what we were doing and how to do it, as we should have." This se think puts the finger on the problem We have railed against the refusal of the Bu-ruerats to lissen to the people they were dictating to. They took fer granted by had all the answers and even before to stions were asked.

The probblins are still there and it solutions will not be easy or pades. However, with the quality of people being mentioned as possible leaders into teagan years there is reason to believe we will get a better is reason to seed we will get a better shake and a steady course in th' buture, it should add up to stability in which you and mo can plan nhund much feel reasonably secure that over-night switches in direction will and up to a feet facility. We have a st make the effort futile. We hope so, st

For a comple of weeks before th' sletion we buil been telling some of or friends that this election would not be nearly as close as th' polisters were predicking. Some of them tackled us since and wanted to know where we got our crystal ball. It aint so crystal ball, when people start rushin to the polisike they did in the obsenter wolls and when down th' line members of th' Party in power quit tawkin', you could smell this landslide comin' a mile away. People than't storm down to vote unless they are going vote AGAINST something or somehold. It's that simple

omehody. It's that simple. It uppears obvious that th' New Ad ministration will atress greater exper-sales and will also stand up to other countries on this matter of free trade. As of now only one tenth of U.S. land production is exported. If this don't im-prove in th' next four years we will set down and shet up! Ever thine,

Ever thine,
The Edditar.

P.S.: Unkis Dunk says be is watched the new Reagan team vary closely. It seems like that Reagan will not give us any prime targets like Bob Bargiand. Carol Tucker Foreman, Esther Peterson, Eula Bingham, and other Ralph Nader proteges, and people like Patricis Harris and Juanita Kreps, at al., to git after. But we'll be watchin' for any had apples that do appear. Dunk says there is one thang you can bet your bottom dollar on. Cesar Chavez days of gitting Labor Dspartment Dollars to finance is United, Farm, Workers, Union, are low, gons. — Thassall, Brothers!

DETAILED BROCHURE UPON REQUEST

in Limousin females

"I like to keep my females at least 50% Limousin...they just seem to be better mother cows than anything else we have tried."

Breedere from ell ecross the U.S. ere testifying to the fact that Limousin femeles heve the most profitable combination of reproductive efficiency and muscling. That's right, finelly e femele that hee the necessary thickness to produce celves with extra weight end euperlor carcasses and still have fertility, milking ability, sess of calving and mothering ability.

Recent research at the University of Georgia showed that Limousin cowe ranked first in repreeding efficiency when compared with three querter Simmentels, Brahmans and Polled Hereford cows. In

Clay Center Research Report #7 the Limouein femelea hed the highest percent pregnent and the least amount of calving problems of all the breede compared. The percentage Limousin cowe also weaned heevier calvee then the bleck beldle cowe. Limoueln cowe of all percentages mean:

extra calvee, extre pounds and extra profits. Put some extra profit into your current herd with Limousin bulle or femeles.

Write for a free copy of OSU Bulletin 876 and a list of active Limousin breeders.

The Bottom Line.

For over twenty years the hostom fine at Santa Elena Ranch has been bankable money. We produce a Red Brahman that fits into the real world of the cattle industry... the commercial end of this business. This end turn nets us a profit and repeat customers.

SANTA ELENA

AMERICAN RED BRANGUS ASSOCIATION NEWS

day after weaning.
Thes teat feed was a high roughage ration of 40% cottonseed hulls plus grass hay free choice, making it about a 50% roughage ration.

"This group of buffs had the highest dally gain and hest performance of any group we produced as far," end Levf. "I think it reflects the ability of these continues." it reflects the ability of these cat-fie to express their genetic poten-tial — especially since much of the test was conducted during the hottest, driest summer on record." The bulls were weaned and put on

The bulls were weaned and put on the test July 28.

Many of the bulle in Levi's sale offering weight 1,000 pounds or more although all are clort year-finge, the oldest about 12 months.

Afthough they are young, Levi said these bulfs will be big enough and mature enough for light service next spring.

next spring.

The sale group factudes several bulls of fierd aire quality, but the mojority are high quality range bulls for commercial ranchers. Levi said that traditionally about 90 percent of his Red Brangua bulls have gone into some of the top commercial herds in the country, and have proved highly adaptable to all elimatic conditions across the South from Florida to California.

Prieface Red Brangus cattle iast 34 years based on selection of outstanding Individuals of proven ability and with strong emphasis on lucreased weaning and yearling weights combined with carcass

quality.

Levi said, "We think this combination of Brahmon and Angua, combined with their red color and polled factor, givee us an ideal nating for comparists." nniual for commercial use. When hred to Hereford cows, they wiff increase weaning weights and the ability to gain in the feedlot, and produce a desirable red bafdy auf-

THE COW SENSE BULL SALE

The fellow pictured above and 149 like him will sall in our Annual Sale November 24, 1980. Some Will have had a little more care, but the one thing they all have in common is that they will oil be ready 10 breed cows. Immediately.

The CK cow herd is chuck tull of milking ability We know this is a trait our customers want. Perhaps this is one of the reasons CK Ranch bulls are walking in many good commercial operations oil over the

The buils are stred by as good a performance proven bull battery as we could obtain, making selections from the top purebred breeding estab lishments in the country. They are slout, sound and hard as a rock.

The CK program is based on cow sense because w know our customers demand the best. Shouldn't yau make plans now to be at the ranch head quarters five miles west of Brookville about noon! late November? It's bull buying season then and that's when we'll be prepared for our Annual Bull Sale. The Cow Sense Bull Sale.
